## EXPERIENCE

SYSTEM SUPPORT, RENNIES TRAVEL; PARKTOWN, JHB – 2017-2018

My key responsibilities were system maintenance, system updates, and user assistance. During my time at Rennies I was praised for always completing my work before the due date. And I take that as my biggest achievement because my colleagues quit within 6 months of starting the project we were assigned to complete, so as the only person who was left with the work load, I take pride in that.

ICT SUPPORT, IIE ROSEBANK COLLEGE; BRAAMFONTEIN, JHB – 2017

I was volunteering at IIE Rosebank College at the Braamfontein Campus for 2 months from January 2017 to February 2017. My responsibilities were computer hardware and software (Installations), and I have learned a lot about ICT in those 2 months.
