Profile

I'm a software developer based in the south of Johannesburg (Soweto). My work and skills are focused on both back-end and front-end applications, and I enjoy doing both, whether I'm just creating a basic website to making an application/system with a database.

I graduated from IIE Rosebank college with a diploma in software development (Completed in December, 2016), and also I'm a WeThinkCode Alumni (Completed in December, 2023).

Experience

SYSTEMS DEVELOPER/SYSTEMS SUPPORT INTERN, SPARK SCHOOLS, ROSEBANK – 2024 - CURRENT

My responsibilities are assisting users with struggles when using the system, and capturing scholar information. I'm also responsible for maintaining integrations and developing new integrations (adding new features and integrating new systems) on the Google Cloud Platform using Google App Script.

SALESFORCE DEVELOPER TRAINEE, PHVNNEL, MIDRAND – 2021

I was a trainee as a salesforce developer.

SYSTEM SUPPORT INTERN, RENNIES TRAVEL, PARKTOWN – 2017 - 2018

My responsibilities were assisting users with struggles when using the system, capturing hotel and guesthouse data on the system and handling passwords/profile resets, and also exporting reports from the system for management.

ICT SUPPORT VOLUNTEER, ICE ROSEBANK COLLEGE, BRAAMFONTEIN – 2017

I was volunteering at IIE Rosebank at the Braamfontein Campus for 2 months from January 2017 to February 2017. My responsibilities were computer hardware and software (Installations), and I have learned a lot about ICT in those 2 months.

Education

WeThinkCode, Johannesburg CBD – Systems Development NQF 5, 2023
